Sir:

In reply to your personal note of the 3d inst I have to say that no discrimination was made against you in the matter of subsidiary coins. In every case where collectors or dealers remitted money for such coins the amount was returned. The general clerk who has charge of the proof coins did not issue a single piece during the year 1885, or since, outside of the regular proof sets. There is no provision

regulations for the sale of
proof coins adopted by
the Superintendent of the
Mint and approved by
the Director of the Mint
at Washington for the
issuing of uncirculated
pieces at their face value
as will be seen by the
enclosed copy. The proof
sets are gotten up for the
special accommodation of
collectors and their con-
venience was consulted
in the regulations for their
sale. It is true that under
the last Superintendent of the
Mint subsidiary coins were
issued to collectors but I

concluded for reasons deemed ~~satisfactory~~ sufficient not to continue the practice and as stated above the Medal Clerk treated all communications in reference to the matter as he did yours.

Since notifying you on Jan 4th that the three silver proof sets for 1885 ordered by you awaited your disposition I have received no word from you. It is true that the silver proofs were issued early in January but for some reason your order did not come to hand. All were of inquiring receive prompt attention and had yours of the 9th been received it would have been answered at once. I trust you will find this statement satisfactory.

Gentlemen:

Investigation has failed to discover any traces of a die other than the "fellow one" and the inference is that no other was ever in possession of the Mint. By Sec. 3551 of the Revised Statutes it is provided that "no private medal dies shall be prepared at any mint, or the machinery or apparatus thereof be used for that purpose"

and consequently you
will have to get your
die elsewhere. The cost
will probably be about
$150. The cost of the
medals (which we
can furnish upon receipt of the die) in
silver will be $5 each
and in bronze $1 each.
The same for the "silver
die".

In reply to yours of the 24th inst. I have to say that you can get your medals struck at the Mint in gold, silver or bronze. You will first however have to procure the dies (which you can do from an Engraver) as the Mint only strikes medals from dies furnished, not being permitted by the regulations to make dies. Should you give the order the work will be promptly and satisfactorily done.

SUPERINTENDENT'S OFFICE, 188

August 4th 6

Sir:

In response to your letter of the 29th ult. I would say that I have referred the matter of furnishing dies for your medals to Mr. C. Ed. Barber No. 1625 North 17th Street in our city, a competent and skilled Engraver, who will correspond with you on the subject. He will probably be able to give you the information you desire as to the expense as well of the dies as of striking whatever number you wish. After you, as well as the Department, have learned his views we can arrive at at least an approximate expense of doing the work. I may add that the medals of the size you designate, struck in bronze, will probably cost about forty cents each.

On an order to this Department for striking from 3000 to 5000 medals, as you designate, a portion of the cost, say $[illegible]000 will be required at the time of giving the order. Very Respectfully
